

Risk Assessment:	Peoples' Services Department			
Activity or site:	Coronavirus COVID-19: Reopening of Primary Schools to all Year Groups from September 2020. Billinge Chapel End Primary School			

Date of assessment:	20-7-20	Approved by:	S.Smith	Review date: As changes occur
----------------------------	---------	---------------------	---------	--------------------------------------

This risk assessment should be produced and read in conjunction with the latest guidance on school re-opening issued by the Department for Education as follows:

- [Actions for educational and childcare settings to prepare for wider opening from 1 June 2020](#)
- [Coronavirus \(COVID-19\): implementing protective measures in education and childcare settings](#)
- [Preparing-for-the-wider-opening-of-schools-from-1-june/planning-guide-for-primary-schools](#)
- [Preparing-for-the-wider-opening-of-early-years-and-childcare-settings-from-1-june/planning-guide-for-early-years-and-childcare-settings](#)
- [Covid-19-decontamination-in-non-healthcare-settings](#)
- <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools#section-2-school-operations>

and should be reviewed regularly to ensure you are still improving, or at least maintaining safety. If there is a significant change in your workplace, remember to check your risk assessment and where necessary, amend it. This assessment must be communicated to all employees on a recorded basis.

List any relevant HSE or industry guidance documents below. These should be used to consider if current control measures are adequate

 HSG262 Managing Skin Exposure Risks at Work (<https://www.hse.gov.uk/pubns/books/hsg262.htm>)

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
Inadequate planning and organising prior to opening	<ul style="list-style-type: none"> • Staff • Children & Young People • Parents & Carers • Visitors (Contractors, Suppliers and support staff for pupils with SEND etc.) • Vulnerable Groups <p><i>(may feel tension and stress as a result of poor planning and not having robust arrangements in place to protect all from contracting and spreading COVID-19)</i></p>	<ul style="list-style-type: none"> • Health and safety compliance checks will be undertaken by Headteacher/Site Manager before opening. • The health status and availability of every member of staff is known and is regularly updated so that deployment can be planned. • Timetable refreshed for each year group to consider which lessons or classroom activities will be delivered, which lessons or classroom activities could take place outdoors. • Headteacher to keep up to date with the latest government guidance and adjust working practices as required. • Staff briefed on the control measures within this risk assessment and changes to policies and procedures. • Rigorous checks carried out by the Headteacher to ensure that all the necessary procedures are being followed. • Governing Body, Parents, Staff and Unions consulted when agreeing the best approaches for the circumstances, with regular opportunities for feedback on the new arrangements. • Close working with the Local Authority. • Headteacher or member of Senior Leadership Team to be present around the school during the early part of wider opening to pick up on any issues or problems and support and reassure staff and children. • Visitors including Specialists, therapists, clinicians and other support staff for pupils with SEND will be briefed on physical distancing and hygiene procedures for the school site on or before arrival. • Before and after school clubs will be subject to a separate risk assessment using the DFE guidance on Protective measures for out of school settings during the Coronavirus (COVID -19) outbreak. 	<ul style="list-style-type: none"> • Staff Handbook to be reviewed, revised and re-issued September 2020. • Business Continuity Plan to be reviewed to include possibility of local lock down. 	

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
Inadequate Communication of Plans	<ul style="list-style-type: none"> • Staff • Children and Young People • Parents and Carers • Visitors (ie, Contractors, Suppliers, support staff for pupils with SEND etc.) • Vulnerable Groups <p><i>(may feel tension and stress, and may not trust and co-operate with management, as a result of poor communication and not knowing what arrangements have been put in place to protect all from contracting and spreading COVID-19)</i></p>	<ul style="list-style-type: none"> • Staying COVID-19 Secure in 2020 poster displayed upon entrance to the school/setting to confirm the premises have complied with the government's guidance on managing the risk of COVID-19. • Staff briefed on the plans (for example, safety measures, timetable changes and staggered arrival and departure times). • Plans for re-opening clearly communicated to parents and carers, including what protective steps the school/setting has taken to make it a low risk place for their child, with regular updates provided as necessary. • Signage displayed at entrance points to the building asking individuals with symptoms not to enter the premises and to remind staff, children and young people to always keep 2m from other people, wherever possible, and reiterating the kind of symptoms to look out for. • Parents informed that if their child needs to be accompanied to the school/setting, only one parent should attend. • Staff, parents, children and young people informed of their allocated drop off and collection times and the process for doing so. Signage will be used to guide parents and carers to drop off/collection points. • Staff, parents, children and young people briefed and signage provided to identify which entrances, exits and circulation routes to use. • Parents instructed that they cannot gather at entrance gates or doors or enter the site (unless they have a pre-arranged appointment, which will be conducted safely). • Parents, children and young people provided with details of education resources such as e-bug and PHE schools resources. • Parents, children and young people made aware of recommendations on transport to and from the school/setting (including avoiding peak times), following the Coronavirus (COVID-19): safer travel guidance for passengers. • Early consultation and communication undertaken with contractors and suppliers that will need to prepare to support the school's/setting's plans for opening (eg, cleaning, catering, food supplies, hygiene suppliers). • Additional cleaning requirements discussed with cleaning contractors or staff, with additional hours agreed to allow for this. 		

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
<p>Inability to maintain social distancing to prevent/limit the spread of the COVID-19 virus</p> <p><i>(The most common symptoms are a high temperature (over 37.8°C), a new, continuous cough, and a loss of, or change in normal sense of smell or taste (anosmia))</i></p>	<ul style="list-style-type: none"> • Staff • Children & Young People • Parents & Carers • Visitors (ie, Contractors, Suppliers and support staff for pupils with SEND etc.) • Vulnerable groups <p><i>(May become infected by coming into close contact with someone who has COVID-19, which is primarily spread from person to person, and by respiratory droplets produced when an infected person coughs, sneezes, or talks; or by touching a surface or object that has the virus on it, and then touching their mouth, nose, or eyes).</i></p> <p><i>COVID-19 symptoms can range from mild (or no symptoms) to severe respiratory illness, which can be fatal.</i></p> <p><i>Children are likely to become infected with coronavirus (COVID-19) at roughly the same rate as adults, but the infection is usually mild, with younger children less likely to become unwell if infected with Coronavirus).</i></p>	<p>To reduce contact between people as much as possible and the transmission risk:</p> <ul style="list-style-type: none"> • Children and young people in classrooms and other learning environments will be seated side by side with desks positioned forward facing rather than face to face or side on. • Teachers' desks will be positioned at least 2 metres away from pupil desks. • Given the decrease in the prevalence of Coronavirus (COVID-19) and the resumption of a full range of curriculum subjects, children and young people will be organised into consistent full class-sized groups, which will be kept together at all times in the day, to minimise contact and mixing with other class groups. Older children will be encouraged to keep distance within class group • Staff will modify their teaching approach to stay at the front of the class and maintain a distance from children and young people in their class as much as possible (ideally 2m), particularly close face-to-face support (noting that this is not possible at all times, which is why hygiene and hand cleaning is so important). Time spent within 1m of any adult or child/young person should be minimized. • Staff are required to practise effective social distancing while in and around the workplace, while involved in work activities and when travelling to and from work, whenever possible, by: <ul style="list-style-type: none"> ➢ Avoiding non-essential contact with others. ➢ Avoiding physical contact (eg hugs, handshakes, etc). ➢ Keeping a safe distance of at least 2 metres from other adults and children • Queuing system established and process for staff to greet each child, ensuring they wash their hands upon arrival and go straight to their allocated classroom. • Tape to be used for cordoning off areas and anti-slip adhesive tape for marking floors to help building users keep to a distance and manage queuing, where required. • Clear signage displayed throughout the school/setting, including classrooms, promoting social distancing. 	<p>Schools/settings with specialist and technical work or learning areas such as Science, should refer to CLEAPSS information on <u>how to manage these areas during this outbreak.</u></p>	

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
		<ul style="list-style-type: none"> • The same Teacher(s) and other staff will be assigned to each group and, as far as possible, these stay the same during the day and on subsequent days. • Wherever possible and limit movement, children and young people will use the same classroom or area of a setting throughout the day, with a thorough cleaning of the rooms at the end of the day. • Wherever possible, children and young people will be seated at the same desk each day if they attend on consecutive days. • One-way circulation in operation, or a divider placed down the middle of communal corridors to keep groups apart as they move through the school/setting where spaces are accessed by corridors. Clear signage will be in place to depict the one-way system in operation. • Rooms will be accessed directly from outside wherever possible to reduce mixing, with different entrances/exits to be used for different class groups. • Staggering of start and finish times/drop-off and collection times to reduce mixing between groups and volume at entrance points. • Staggering of breaks to ensure that any corridors or circulation routes used have a limited number of children and young people using them at any time, keeping contact to a minimum and avoiding pinch points and bottlenecks wherever possible. • Staggering of lunch breaks with children and young people cleaning their hands beforehand. • Children and young people to be reminded of social distancing as break/lunch times begin. • Supervision levels enhanced at break/lunch times, especially for young children, to support social distancing. • Limiting the number of children or young people who use the toilet facilities to ensure the toilets do not become crowded, together with identified and marked queuing zones. These areas will be monitored closely by staff. • Use of outdoor space, wherever possible, for exercise and breaks and outdoor education, to limit transmission and more easily allow for distance between children and staff. External areas to be designated for different groups. 		

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
		<ul style="list-style-type: none"> • Assemblies will take place with individual groups in their allocated classroom spaces rather than bringing children from different classes together into one hall or large space. • Where shared rooms such as halls, dining areas and internal and external sports facilities are used for lunch, exercise and breaks between lessons, there will be staggered use by different class groups, they will not be allowed to mix, they will not play sports or games together and there will be adequate cleaning between groups). • Where lifts are installed for disabled persons, the maximum occupancy will be reduced, the lift operating controls will be frequently cleaned and hand sanitiser will be adjacent to lift landings/lobbies. • Staff, children and young people to be regularly reminded of the importance of social distancing both in the school/setting and outside of it, taking steps to minimise opportunities for the virus to spread by maintaining a distance of 2m between individuals, wherever possible. • Unnecessary items will be removed from classrooms and other learning environments where there is space to store it elsewhere. • Only essential visitors/contractors allowed onto site by appointment. • Additional controls to be put in place where children and young people need additional support to follow the measures implemented (eg, routes round school marked in braille or with other meaningful symbols, and social stories to support them in understanding how to follow rules). • A separate risk assessment will be carried out if it is deemed that a child or young person may not be able to follow instructions, to determine what mitigations need to be put in place. 		
Ineffective cleaning and hygiene during the outbreak	<ul style="list-style-type: none"> • Staff • Children & Young People • Parents & Carers • Visitors (ie, Contractors, Suppliers, support staff for pupils with SEND etc.) • Vulnerable groups (Elderly, Pregnant workers, those with 	<ul style="list-style-type: none"> • School to be routinely cleaned prior to re-opening. • Sufficient handwashing facilities available for the expected number of building occupants, with soap, hot and cold running water and means of drying hands, ie, paper towels/hand dryer. • Alcohol-based hand sanitizer (containing at least 60% alcohol) will be placed at building entrance/exit points, in either wall mounted or fixed floor mounted dispensers. Additional hand sanitizer/hand rub will be located in classrooms and other learning environments where access to 	<ul style="list-style-type: none"> • A separate risk assessment to be completed for any pupils with complex needs who would struggle to maintain as good respiratory hygiene as their peers ie, those who spit uncontrollably or 	

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
	<p>existing underlying health conditions or those from a Black, Asian and Minority Ethnic (BAME) background)</p> <p><i>(may become infected by coming into close contact with someone who has COVID-19, which is primarily spread from person to person, and by respiratory droplets produced when an infected person coughs, sneezes, or talks; or by touching a surface or object that has the virus on it, and then touching their mouth, nose, or eyes).</i></p>	<p>handwashing is not readily available. These will be replenished regularly.</p> <ul style="list-style-type: none"> • 'Use hand sanitiser' safety sign and NHS 'alcohol hand rub hand hygiene technique – for visibly clean hands' posters displayed adjacent to hand sanitiser dispensers. https://www.sthelensccg.nhs.uk/media/1641/hands-with-gel.pdf • Objects and surfaces that are frequently touched (eg, toys, books, desks, chairs, door handles, sinks, toilets, etc) will be cleaned more regularly following Public Health England (PHE) COVID-19: cleaning of non-healthcare settings guidance. • The use of high-touch items and equipment, for example, printers or whiteboards, will be limited/restricted. • All staff, children and young people will be reminded to: <ul style="list-style-type: none"> ➢ Frequently wash their hands with soap and water. ➢ Clean their hands upon arrival at the school/setting, after using the toilet, after breaks, after changing rooms, before and after eating – including snacks, after blowing their nose, sneezing or coughing and before leaving the school/setting. ➢ Avoid touching their mouth, eyes and nose, and to use a tissue when coughing or sneezing, following the NHS 'Catch it, Bin it, Kill it' approach. <p>Signage/posters reinforcing these messages will be displayed throughout the school/setting.</p> <ul style="list-style-type: none"> • Children and young people will be supervised to ensure they wash their hands correctly and those who have trouble cleaning their hands independently will be supported by staff. • Young children encouraged to learn and practise these good hygiene habits through games, songs and repetition. • Lidded bins provided throughout the school/setting for disposal of used tissues, which are emptied regularly throughout the day. • All spaces will be well ventilated using natural ventilation (opening windows) or mechanical ventilation units. • Monitoring arrangements in place to ensure sufficient supplies of soap, hand towels, hand sanitizer and tissues are maintained. 	<p>use saliva as a sensory stimulant.</p>	

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
		<ul style="list-style-type: none"> • Disposable paper towels provided within kitchen areas for drying hands/dishes. • Pupils will be instructed to limit the amount of equipment they bring into school each day, to essentials such as: lunch boxes, hats, coats, and reading books-book bags only will be allowed. 		
Inappropriate use of offices and staff room	<ul style="list-style-type: none"> • Staff <p><i>(may become infected with COVID-19 through ineffective social distancing and hygiene control).</i></p>	<ul style="list-style-type: none"> • Staggering the use of staff rooms and offices to limit occupancy. • Re-configuring seating, tables and workstations to maintain spacing and reduce face-to-face interactions. • Where it is not possible to reconfigure/move seating, tables and workstations, barriers or screens will be used to separate staff from each other or staff will work side by side or facing away from each other rather than face-to-face. • Staff will work from same workstation and be instructed not to share equipment, wherever possible. • Staff will be encouraged to bring in their own food, cutlery and dishes for personal use. • Communal objects will be regularly cleaned or removed from common areas, like coffee/tea containers. 		
Inappropriate cleaning methods adopted for cleaning and disinfection	<ul style="list-style-type: none"> • Staff • Children & Young People • Parents & Carers • Visitors (ie, Contractors, Suppliers and support staff for pupils with SEND etc.) • Vulnerable groups <p><i>(may become infected with COVID-19 by touching a surface or object that has the virus on it, and then touching their mouth, nose, or eyes).</i></p>	<ul style="list-style-type: none"> • Public areas where a symptomatic individual has passed through and spent minimal time, such as corridors, but which are not visibly contaminated with body fluids will be cleaned thoroughly as normal using standard cleaning products. • All surfaces that a symptomatic person has come into contact will be cleaned and disinfected, including: objects which are visibly contaminated with body fluids and all potentially contaminated high-contact areas such as bathrooms, door handles, telephones, grab-rails in corridors and stairwells. • Cleaning will be disposed of in line with the Government's <u>guidance on cleaning for non-healthcare settings</u>. • Cleaning staff will be issued with suitable PPE, which will be worn at all times while cleaning. (see PPE section) 		

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
Inappropriate handling and disposal of waste	<ul style="list-style-type: none"> • Staff • Children & Young People • Visitors (ie, Contractors, Suppliers and support staff for pupils with SEND etc.) • Vulnerable groups <p><i>(may become infected with COVID-19 through inappropriate handling, storage or disposal of infectious waste)</i></p>	<ul style="list-style-type: none"> • Waste will be disposed of in line with the Government's guidance on cleaning for non-healthcare settings. • Waste from possible cases and cleaning of areas where possible cases have been (including tissues, disposable cloths, disposable PPE) will be placed in a plastic rubbish bag and tied when full; then placed into a second bin bag and tied. It will then be stored in a suitable and secure location, away from children and separated from communal waste areas, and marked for storage for at least 72 hours and put in with the normal waste. • Where storage of such waste for at least 72 hours is not appropriate, the waste will be placed into a clinical waste bag and a Category B infectious waste collection will be arranged via the school's usual specialist Clinical Waste Collection Service, so the waste can be sent for appropriate treatment. 		
Inadequate provision, handling or use of Personal Protective Equipment (PPE)	<ul style="list-style-type: none"> • Staff • Children & Young People <p><i>(may become infected with COVID-19 due to a lack of suitable PPE when undertaking direct care, incompatibility of PPE, lack of instruction and training on its proper use)</i></p>	<ul style="list-style-type: none"> • Existing routine use of PPE will continue for care of non-symptomatic children and young people who have intimate care needs or who present behaviours which may increase the risk of droplet transmission (such as spitting). • Appropriate PPE will be provided and worn by supervising staff should a child or young person become unwell with symptoms of Coronavirus while in the school/setting and need direct personal care until they can return home. These include: <ul style="list-style-type: none"> ➢ a fluid-resistant surgical face mask, if a distance of 2m cannot be maintained; ➢ a fluid-resistant surgical face mask, disposable gloves and a disposable plastic apron if physical contact with the child or young person is necessary, then and will be worn by the supervising adult. ➢ eye protection (ie, face visor or goggles) where a risk assessment determines that there is a risk of splashing fluids entering the eyes (eg, from coughing, spitting, or vomiting). • Cleaning staff will be issued with and wear disposable gloves and aprons for general cleaning. However, if an area has been heavily contaminated, such as with visible bodily fluids, from a person with suspected Coronavirus (COVID-19), the use protection for the eyes, mouth and nose, will also be worn. 		

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
		<ul style="list-style-type: none"> • Guidance on safe working in education, childcare and children's social care referenced for preventing and controlling infection, including the use of PPE. • Relevant staff trained on how to put PPE on and take it off safely and the need for scrupulous hand hygiene in order to reduce self-contamination. • Local supply chains established and maintained for the obtaining of PPE. • Only PPE that is CE marked and purchased from a reliable source will be used by staff. • Staff to be reminded: <ul style="list-style-type: none"> ➢ to avoid touching their face, eyes, nose or mouth when wearing PPE (ie, gloves). ➢ that torn or otherwise damaged PPE is not to be used and removed immediately if this occurs during use. ➢ to cover any cuts and abrasions with a waterproof dressing. ➢ that the wearing of gloves is not a substitute for good hand washing protocols. 		
Contact Dermatitis, skin irritation, exacerbation of existing skin conditions	<ul style="list-style-type: none"> • Staff <p><i>(may suffer contact Dermatitis, skin irritation or exacerbation of an existing skin condition as a result of frequent hand washing)</i></p>	<ul style="list-style-type: none"> • Staff encouraged to regularly use moisturising hand cream to prevent skin from drying and cracking, and to report any skin conditions or new skin symptoms (ie, Psoriasis or Dermatitis) affecting the hands as a result of frequent handwashing. • Access to the Council's Occupational Health Advisor for further advice on skin care/monitoring. 		
Inappropriate use of Alcohol-based Hand Sanitisers or Hand Rub that contains at least 60% alcohol	<ul style="list-style-type: none"> • Staff • Children & Young People • Parents & Carers • Visitors (ie, Contractors, Suppliers and support staff for pupils with SEND etc.) <p><i>(may cause alcohol poisoning if ingested and may be ineffective against the virus if used incorrectly)</i></p>	<ul style="list-style-type: none"> • COSHH Risk Assessment completed for use of hand rub/sanitiser within the school/setting. • Hand sanitiser/hand rub will only be used where access to hand washing with soap and running water is not readily available and where hands are not visibly soiled. • Bottles of hand sanitiser/hand rub to be stored out of the sight and reach of young children to reduce unintended, adverse consequences. • Where hand sanitisers has to be used by children and young people, this will be used under strict adult supervision. • Staff, children and young people encouraged to report any adverse effects experienced with the use of hand sanitizer/hand rub, with advice sought from GP where serious reactions occur. 		

What are the hazards? Don't forget long term health hazards	Who might be harmed and how? Identify groups of people and how the hazard could cause them harm	Current control measures List what is already in place to reduce the risk of harm. This may include reference to other procedures, systems of work, training, supervision, inspections, etc	Any additional control measures required	Date implemented
Vulnerable Groups at higher risk of severe illness from Coronavirus (COVID-19)	<ul style="list-style-type: none"> • Older Staff • Male Staff • Pregnant Staff • Children & Young People • Parents & Carers • Those with existing underlying health conditions or from a Black, Asian and Minority Ethnic (BAME) background <p><i>(who are at higher risk of severe illness or poorer outcomes from contracting Coronavirus)</i></p>	<ul style="list-style-type: none"> • Headteachers to identify and be aware of Staff who fall into one of the vulnerable risk groups as determined by Public Health England or who are from a BAME background, to ensure they are given adequate protection and support to enable them to comply with Government Health recommendations. Separate individual risk assessments will be completed for such Staff who are more susceptible to severe illness or poor outcomes from COVID-19. • Staff who are clinically extremely vulnerable and have been 'shielding' will be supported to work from home, where this can be accommodated, and will only enter the workplace if it is COVID-Secure and suitable safe role can be found. • Separate individual risk assessments will be completed for any children and young people determined by a medical practitioner as being clinically extremely vulnerable and more susceptible to severe illness or poor outcomes from COVID-19. • All reviews of staff roles and safety will be non-discriminatory and take into consideration equality considerations and protected characteristics as defined under the Equality Act 2010, eg, disabled staff. • Reasonable adjustments will be made to avoid workers with disabilities or physical and mental health conditions being put at any substantial disadvantage, where necessary, for example: allowing someone with social anxiety disorder to have their own desk instead of hot-desking, installing a ramp for a wheelchair user, provided ground floor accommodation for a wheelchair user, etc. • A separate individual risk assessment will be undertaken for pregnant women over 28 weeks gestation, or under 28 weeks with an underlying health condition, which may make them more susceptible to more severe symptoms or effects from the disease. 		
Use of Shared Equipment and Resources	<ul style="list-style-type: none"> • Staff • Children and Young People <p><i>(may become infected by touching equipment and resources that have the COVID-</i></p>	<ul style="list-style-type: none"> • The use of shared resources will be reduced by: <ul style="list-style-type: none"> ➢ minimizing the number of shared resources and equipment in use within the classroom ➢ limiting the amount of shared resources that are taken home and limiting exchange of take-home resources between children, young people and staff. 		

What are the hazards? Don't forget long term health hazards	Who might be harmed and how?
